KIEN LONG COMMERCIAL JOINT STOCK BANK

STATEMENT OF THE BOARD OF DIRECTORS

The Board of Directors of Kien Long Commercial Joint Stock Bank (hereinafter referred to as "the Bank") presents this statement together with the Consolidated Interim Financial Statements for the first 6 months of the fiscal year ending 31 December 2026, including the Interim Separate Financial Statements of the Bank and those of subsidiary (hereinafter collectively referred to as "the Group").

Responsibilities of the Board of Management

The Bank's Board of Management is responsible for the preparation and presentation of the Consolidated Interim Financial Statements that give a true and fair view of the consolidated interim financial position, the consolidated interim financial performance and the consolidated interim cash flows of the Group during the period. In order to prepare and present these Consolidated Interim Financial Statements, the Board of Management must:

- select appropriate accounting policies and apply them consistently;
- make judgments and estimates reasonably and prudently;
- state whether applicable accounting standards have been followed or not, and all the differences subject to any material departures are disclosed and explained in the Consolidated Interim Financial Statements;
- prepare the Consolidated Interim Financial Statements of the Group on a going-concern basis unless it is inappropriate to presume that the Group will continue in business;
- design and implement effectively the internal control system to minimize the risks of material misstatements due to fraud or error in the preparation and presentation of the Consolidated Interim Financial Statements.

The Board of Management is responsible for ensuring that proper accounting records are maintained to accurately reflect, with reasonable accuracy at any time, the financial position of the Group and that such accounting records comply with the applicable accounting framework. The Board of Management is also responsible for safeguarding the Group's assets and, accordingly, for taking reasonable measures to prevent and detect fraud and other irregularities.

The Board of Management confirms that it has complied with the above requirements in the preparation and presentation of these Consolidated Interim Financial Statements.

Statement of the Board of Directors

The Board of Directors hereby approves the accompanying Consolidated Interim Financial Statements, which give a true and fair view of the consolidated interim financial position of the Group as at 30 June 2026 and of its consolidated interim financial performance and consolidated interim cash flows for the first 6 months of the fiscal year ending 31 December 2026, in accordance with the Vietnamese Accounting Standards, the Vietnamese Accounting System applicable to Credit Institutions in Vietnam and relevant statutory requirements applicable to the preparation and presentation of the Consolidated Interim Financial Statements.

For and on behalf of the Board of Directors,

Tran Ngoc Minh
Chairman

REPORT ON THE INTERIM FINANCIAL INFORMATION REVIEW

**To: THE SHAREHOLDERS, THE BOARD OF DIRECTORS AND THE BOARD OF MANAGEMENT
KIEN LONG COMMERCIAL JOINT STOCK BANK**

We have reviewed the accompanying Consolidated Interim Financial Statements of Kien Long Commercial Joint Stock Bank (hereinafter referred to as "the Bank") and subsidiary (hereinafter collectively referred to as "the Group"), which were prepared on 22 August 2026 (from page 06 to page 58), comprising the Consolidated Interim Statement of Financial Position as at 30 June 2026, the Consolidated Interim Income Statement, the Consolidated Interim Cash Flow Statement for the first 6 months of the fiscal year ending 31 December 2026 and the Notes to the Consolidated Interim Financial Statements.

Responsibility of the Board of Management

The Bank's Board of Management is responsible for the preparation, true and fair presentation of the Group's Consolidated Interim Financial Statements in accordance with the Vietnamese Accounting Standards, the Vietnamese Accounting System applicable to Credit Institutions in Vietnam and relevant statutory requirements applicable to the preparation and presentation of the Consolidated Interim Financial Statements; and responsible for such internal control as the Board of Management determines necessary to enable the preparation and presentation of the Consolidated Interim Financial Statements to be free from material misstatement due to fraud or error.

Responsibility of Auditors

Our responsibility is to express a conclusion on these Consolidated Interim Financial Statements based on our review. We have conducted the review in accordance with the Vietnamese Standard on Review Engagements No. 2410 – Review on interim financial information performed by independent auditor of the entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As disclosed in Note No. V.10 to the Consolidated Interim Financial Statements, as at 30 June 2026, the Group had a receivable amounting to VND 343.386 million, which was in the process of being reconciled with the relevant organizations. With the available documents and information, we were unable to obtain sufficient and appropriate evidence to assess the outcome of the reconciliation process and the amount of allowance (if any) to be recognized.

Qualified Conclusion

Based on our review, except for the effects of such adjustments which might have been determined to be necessary in respect of the matter described in the "Basis for Qualified Conclusion" paragraph, nothing has come to our attention that causes us to believe that the accompanying Consolidated Interim Financial Statements have not given a true and fair view, in all material respects, of the consolidated interim financial position of the Group as at 30 June 2026 and of its consolidated interim financial performance and its consolidated interim cash flows for the first 6 months of the fiscal year ending 31 December 2026, in accordance with the Vietnamese Accounting Standards, the Vietnamese Accounting System applicable to Credit Institutions in Vietnam and relevant statutory requirements applicable to the preparation and presentation of the Consolidated Interim Financial Statements.

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)

Pursuant to Resolution No. 13/NQ-HĐQT dated 03 July 2026, the Board of Directors approved the change of the Bank's head office location. The new head office is expected to be partly located at the 1st floor and the 2nd floor, Sonadezi Building, No. 1, Road 1, Industrial Park Quarter, Tran Bien Ward, Dong Nai City. As at the date of these Consolidated Interim Financial Statements, the Bank is still carrying out the procedures for changing its head office location.

5. Structure of the Group

The Group includes the Bank and 1 subsidiary under the control of the Bank (hereinafter referred to as "the Group" or "the Bank").

The Bank invests in KienlongBank Asset Management Company (a subsidiary) located at 6th Floor, No. 40 – 42 – 44 Pham Hong Thai Street, Rach Gia Ward, An Giang Province. This subsidiary has been operating in line with the Business Registration Certificate No. 1701452905, initially registered on 12 November 2010, issued by An Giang Province Department of Finance, and the most recent amendment of which is dated 02 October 2025. The principal business activities of the subsidiary include consulting, performing business brokerage, leasing real estate, land use rights; managing loans and collateral for loans; valuating collateral and managing collateral files; restructuring loans; buying debts from and selling debts to credit institutions. As at the statement of financial position date, the percentage of benefit and percentage of voting right of the Bank at this subsidiary are 100% (beginning balance: 100%).

6. Headcount

As at the reporting date, the Group's headcount is 3.674 (headcount at the beginning of the year: 3.225).

II. FISCAL YEAR AND ACCOUNTING CURRENCY UNIT

1. Fiscal year

The fiscal year of the Group is from 01 January to 31 December annually.

2. Accounting currency unit

The accounting currency unit is Vietnam Dong (VND). According to Circular No. 49/2014/TT-NHNN dated 31 December 2014 of the SBV, the figures are rounded to million and presented in million Vietnam Dong (million VND) when preparing and presenting the Consolidated Interim Financial Statements.

III. APPLICABLE ACCOUNTING STANDARDS AND SYSTEM

1. Applicable Accounting System

The Bank has been applying the Accounting System applicable to credit institutions according to Decision No. 479/2004/QĐ-NHNN dated 29 April 2004 and the Financial Reporting Regime for credit institutions in accordance with Decision No. 16/2007/QĐ-NHNN dated 18 April 2007 (hereinafter referred to as "the Vietnamese Accounting System applicable to credit institutions in Vietnam"), and circulars amending and supplementing these Decisions issued by the SBV.

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)

2. Statement of the compliance with the Accounting Standards and System

The Consolidated Interim Financial Statements have been prepared and presented in accordance with the Vietnamese Accounting Standards, the Vietnamese Accounting System applicable to Credit Institutions in Vietnam and relevant statutory requirements on the preparation and presentation of the Consolidated Interim Financial Statements.

Accordingly, the accompanying Consolidated Interim Financial Statements, including the utilization thereof, are not designed for those who are not informed about Vietnamese accounting principles, procedures and practices and furthermore are not intended to present the consolidated financial position of the Group, its consolidated financial performance and its consolidated cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

3. Basis of assumptions and uses of estimates

The preparation and presentation of the Consolidated Interim Financial Statements require the Board of Management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent liabilities. These estimates and assumptions also affect the income, expenses and the resultant provision. Therefore, such estimates are necessarily based on assumptions involving varying degrees of subjectivity and uncertainty, and actual results may differ resulting in future changes in such related items.

4. Changes in the application of accounting policies

The accounting policies adopted by the Bank in the preparation and presentation of the Consolidated Interim Financial Statements for the current period are consistent with those followed in the preparation and presentation of the Consolidated Financial Statements and the Consolidated Interim Financial Statements for the previous year, except for the following:

Pursuant to Circular No. 70/2025/TT-NHNN ("Circular 70") dated 31 December 2025, effective from 01 January 2026, amending and supplementing Point 6.3, Clause 6, Section I of the Account System applicable to Credit Institutions issued together with Decision No. 479/2004/QĐ-NHNN dated 29 April 2004.

Accordingly, for economic transactions not yet guided under Decision 479 and guiding documents of the SBV, credit institutions shall, based on the content and substance of the economic transactions, the provisions of the Accounting Law, guiding documents for the Accounting Law, Vietnamese Accounting Standards, and prevailing legal regulations guiding accounting principles applicable to enterprises, account for such transactions.

IV. APPLICABLE ACCOUNTING POLICIES

1. Consolidation bases

The Consolidated Interim Financial Statements include the Interim Separate Financial Statements of the Bank and those of its subsidiary. A subsidiary is an enterprise that is controlled by the Bank. The control exists when the Bank has the power to directly or indirectly govern the financial and operating policies of the subsidiary to obtain economic benefits from its activities. In determining the control power, the potential voting right arising from options or debt and capital instruments that can be converted into common shares as at the statement of financial position date should also be taken into consideration.

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)

The financial performance of the subsidiary, which is acquired or disposed during the period, is included in the Consolidated Interim Income Statement from the date of acquisition or disposal of investments in that subsidiary.

The Interim Financial Statements of the Bank and those of its subsidiary used for consolidation are prepared in the same accounting period and apply consistently accounting policies to the same types of transactions and events in similar circumstances. In the case that the accounting policy of a subsidiary is different from the accounting policy applied consistently in the Group, the Interim Financial Statements of that subsidiary will be properly adjusted before being used for the preparation of the Consolidated Interim Financial Statements.

Intra-group balances in the Interim Statement of Financial Position and intra-group transactions and unrealized profits resulting from these transactions must be completely eliminated. Unrealized losses resulting from intra-group transactions are also eliminated unless costs cannot be recovered.

2. Foreign currency translation

All transactions of the Group are recorded in original currencies. Monetary items denominated in currencies other than VND are translated into VND at the average of buying and selling spot exchange rate of that currency ("spot exchange rate") ruling at the end of the last working day of the accounting period if the difference between this spot exchange rate and the weighted average of the buying and selling exchange rates ruling on the last working day of the accounting period is less than 1%; in case this difference is equal to or greater than 1%, the Group uses the weighted average of the buying and selling exchange rates ruling on the last working day of the accounting period. Non-monetary items denominated in currencies other than VND are translated to VND at the spot exchange rates ruling on the transaction dates.

Income and expenses in foreign currencies are translated into VND at the average of the buying and selling exchange rates ruling on the transaction dates.

Foreign exchange differences arising from monthly translation of monetary assets and liabilities are recognized in the "Foreign exchange differences" account in equity caption and then transferred to the Consolidated Interim Income Statement at the end of the annual accounting period.

Translation exchange rate:

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)

3. Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, deposits at the SBV, deposits at and loans to other credit institutions with original terms to maturity of not more than three months, that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

4. Deposits at and loans to other credit institutions

Deposits at other credit institutions include demand deposits, deposits at local credit institutions, branches of overseas banks with original maturity of less than three months and deposits at overseas credit institutions. Loans to other credit institutions are loans with original terms to maturity not exceeding one year.

Deposits at local credit institutions, branches of overseas banks excluding deposits for payment and deposits at overseas credit institutions are stated at the outstanding amount less provision for credit losses.

The Bank classifies debts and recognizes specific provisions for term deposits with, and loans to, other credit institutions in accordance with the methodology described in Note No. IV.6.

According to regulations of the above-mentioned documents, the Bank is not required to make general provision for term deposits and loans to other credit institutions.

5. Loans to customers

Loans are recognized when the loan agreement or loan receipt commitment is signed by the Bank and customer and the loan amount is released to the customer by the Bank. Loans to customers are presented at the principal amounts outstanding less any provision made for loans to customers.

Loans are given to entities under such forms as loans by instalments, loans according to credit lines, project loans, etc.

Collateral is mainly mortgage and pledge of assets in addition to trust receipts.

6. Debt classification; level and method for making provision for credit losses

Debt classification

The Bank applied the quantitative method as regulated under Article 10 of Circular No. 31/2024/TT-NHNN dated 30 June 2024 ("Circular 31") as amended and supplemented by Circular No. 37/2025/TT-NHNN dated 30 October 2025 on classification of assets in the operations of commercial banks, non-bank credit institutions, and foreign bank branches, for: term deposits; loans to other credit institutions; loans to customers;... debts arising from deferred payment L/Cs containing a provision that the beneficiary is entitled to receive sight payment or advanced payment before the L/C due date, and L/C reimbursement in the form of an agreement with the customer to make payment using the reimbursing bank's funds from the date on which the reimbursing bank pays the beneficiary; L/C payment by negotiation; and outright purchase without recourse of sets of documents presented under L/Cs, except where a credit institution or foreign bank branch buys outright a set of documents presented under an L/C which it issued (collectively called "debts").

Where a customer owes more than one debt to the Bank, and has any of its debts transferred to a higher risk group of debts, the Bank is obliged to classify the remaining debts of such customer into the group of debts with higher risk corresponding with their level of risk.

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)

The Bank has used the result of the loan classification provided by the Credit Information Center ("CIC") to adjust its classifications of debts and off-statement of financial position commitments. Where the Bank classifies its customer loans to a lower risk group of debt compared to the classification provided by CIC, the Bank has to reclassify the loans into the higher risk group according to CIC classifications.

Where the Bank participates in a syndicated loan not being as the lead bank, the Bank reclassifies all debts (including the outstanding syndicated loan) of the customer into a higher risk group of debt as decided by the lead bank and by participating banks.

The Bank performs monthly debt classification based on the outstanding principal balance as at the last day of each month, in accordance with Circular 31. Provisions for credit losses are recognized in accordance with Decree No. 86/2024/NĐ-CP dated 11 July 2024 ("Decree 86"), which sets out the amounts, methods for making and using provisions for risks arising from the operations of credit institutions and foreign bank branches, as well as cases in which credit institutions allocate forgivable interest. Specific provisions are determined as follows:

Group		Loan classification using the quantitative method	Provision rate
1	Current	(a) Unmatured debts rated likely to be fully recovered in terms of both principal and interest by due dates; or (b) Debts overdue less than 10 days and assessed likely to be fully recovered of delinquent principal and interest, and to be fully recovered of principal and interest by due dates. CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)

Specific provision for credit losses

According to the provisions of Decree 86, the specific provision for credit losses for debts at the end of each month is appropriated based on the provision rates corresponding to the results of debt classification and principal balance minus the discounted value of the collateral at the last day of the month. Specific provision as at the statement of financial position date is made based on the principal balance less discounted value of collateral multiplied by provision rates which are determined based on the loan classification results as at that date.

The maximum value and deduction rate of collateral are determined in accordance with the provisions of Decree 86, whereby each type of collateral has a certain maximum deduction rate for the purpose of calculating risk provision.

The collateral to be deducted when calculating the specific provision must meet the following conditions:

- The Bank has the right to dispose of the collateral according to the guarantee contract and the provisions of law when the customer fails to fulfill its obligations as agreed;
- The expected disposal period for the collateral shall not exceed 01 (one) year for non-real estate collateral and not exceed 02 (two) years for real estate collateral, from the date the Bank has the right to dispose of the collateral;
- The collateral must comply with the provisions of the law on secured transactions and other relevant laws; and
- If the collateral does not meet the conditions specified in points a, b, and c above, the deductible value of that collateral shall be considered to be 0 (zero).

The specific provision is additionally made in accordance with legal documents regulating debt restructure, exemption or reduction of interest and fees, retention of debt category by credit institutions and foreign bank branches to assist difficult customers.

General provision

According to Decree 86, a general provision is made at 0,75% of the outstanding balance of loans to customers at the end of each month, excluding the loans to customers which are classified as loss.

Bad debts written off

The provision is recognized as an expense on the Consolidated Interim Income Statement and used to write-off bad debts. The Bank establishes a Risk Handling Committee to deal with bad debts if they are classified in Group 5 or if the borrower is a dissolved, bankrupt organization or individual who is dead or missing.

Debts written-off against provision are recorded as in an appropriate off-statement of financial position account for monitoring and collection purposes. The amount recovered from the debts previously written-off is recognized in the Consolidated Interim Income Statement upon receipt.

Debt purchase, sale

Debt purchase and sale of the Bank are recorded in accordance with Circular 09/2015/TT-NHNN dated 17 July 2015 ("Circular 09") amended and supplemented by Circular 18/2022/TT-NHNN dated 26 December 2022 ("Circular 18") issued by the SBV regulating debt purchase and sale by credit institutions, foreign bank branches:

- Book value of a purchased and sold debt includes the book value of debt principal and interest and other debt-related financial obligations (if any) by the time of debt purchase and sale for the debt accounted on the statement of financial position or off the statement of financial position; or the book value being monitored at the time of being removed off the statement of financial position or at the time of debt purchase and sale for the debt being removed off the Consolidated Interim Statement of Financial Position.

Address: No. 40 – 42 – 44 Pham Hong Thai Street, Rach Gia Ward, An Giang Province

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)

- Debt purchase and sale price means a sum of money to be paid by a debt purchaser to a debt seller under a debt purchase and sale contract.

Debt purchase

Debts purchased are recorded on the statement of financial position of the Bank at the price stated in debt purchase contract and monitoring principal and interest of purchased debts off statement of financial position. In case the Bank receives interest on a debt including interest before the Bank purchased the debt, the Bank shall allocate the interest amount according to the following principles: reduce the value of the purchased debt by the interest amount before the purchase and record as income the interest amount of the period after the Bank purchased the debt.

For the purchased debts, the Bank classifies the paid amount into a group with a risk level not lower than the previous debt group that was classified before purchase. Debt classification and provision for debt purchases are made similarly to loans to other customers according to the method described in the above mentioned Note.

Debt sale

Revenue and expense from selling debts are recorded in accordance with Circular 09 and Circular 18. According to Circular 09, the difference between the debt purchase, sale price and debt seller's book value is handled as follows:

- For the debts being recorded on the statement of financial position:
 - If the debt sale price is higher than the book value of the debt, the difference shall be accounted as income of the Bank during the period.
 - If the debt sale price is lower than the value of the debt, the difference shall be offset with the compensation paid by an individual or an organization (in case such individual or organization is identified to have caused the damage and must pay compensation under regulations), the insurance sum paid by the insurer or the risk provision already set aside from expenses during the period.
- For the debt accounted off the statement of financial position or debt left off the Consolidated Interim Statement of Financial Position, the debt sale proceeds shall be accounted as other income of the Bank.

For debts sold but not yet fully collected, the Bank classifies the outstanding amount from the debt buyer into the debt category at the most recent debt classification before the sale. Based on the term, maturity, and other information in the credit agreement signed with the customer whose debt was sold, the Bank further classifies the outstanding amount from the debt sale to calculate the provision using the method presented in the above mentioned Note.

Off-statement of financial position commitments

Off-statement of financial position commitments include guarantees, foreign exchange commitments and L/C commitments.

All outstanding debts and value of off-statement of financial position commitments of one customer at a credit institution, foreign bank branch shall be classified into one debt group. For a customer who has two debts and over and/or off-statement of financial position commitments at a credit institution, foreign bank branch and any one debt of them is classified in the group of higher risk than other debts or off-statement of financial position commitments, the credit institution, foreign bank branch shall classify the other debts or off-statement of financial position commitments of the customer in the group of highest risk level.

KIEN LONG COMMERCIAL JOINT STOCK BANK

Address: No. 40 – 42 – 44 Pham Hong Thai Street, Rach Gia Ward, An Giang Province

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)

The classification of off-statement of financial position commitments is conducted solely for management, supervision of credit granting quality in accordance with the same accounting policy applied to loans to customers as described in the above mentioned Note. Unless the Bank has performed its payment obligation on other's behalf under the guarantee contracts, the classification of payment on other's behalf and provision therefor are in accordance with the same accounting policy applied to loans to customers as described in the above mentioned Note.

In accordance with Circular 31 and Decree 86, the Bank is not required to make provision for off-statement of financial position commitments.

7. Trading securities

Trading securities include debt securities acquired principally for the purpose of short-term resale or where there is evidence of trading such securities for the purpose of short-term profit-taking.

Trading securities are recognized on the date the Bank becomes a party to the contractual provisions of the securities (trade-date accounting).

Trading securities are initially recognized at cost less provision for trading securities (if any). The provision for trading securities comprises credit risk provision and provision for devaluation of securities. The provision for devaluation of securities is recognized in the Consolidated Interim Income Statement under "Net gain/(loss) from trading in trading securities". For unlisted corporate bonds or those not registered for trading on the Unlisted Public Company Market (UpCOM), the Bank makes the provision in accordance with Note No. IV.6.

Provision for impairment of other securities is made when there is evidence that the market price of trading securities is lower than their carrying amount:

- For listed securities, where the market price is determined based on the latest transaction price on the Stock Exchange within 10 days prior to the end of the accounting period, the Bank does not recognize provision for these securities;
- For other unlisted securities, in cases where market price is unavailable or cannot be reliably determined, such securities are carried at cost.

Credit risk provision for unlisted corporate bonds and impairment provision for other trading securities mentioned above shall be reversed when the recoverable amount of the securities increases after the provision is recognized. The provision is reversed only to the extent that the carrying amount of the securities does not exceed their carrying amount that would have been determined had no provision been recognized.

Interest income from trading debt securities during the holding period is recognized in the Consolidated Interim Income Statement upon receipt. Trading securities are derecognized when the contractual rights to receive cash flows from these securities expire or when the Bank has transferred substantially all the risks and rewards of ownership of these securities.

8. Investment securities

Investment securities include available-for-sale investment securities and held-to-maturity investment securities. The Bank classifies investment securities at the time of acquisition as available-for-sale investment securities or held-to-maturity investment securities. In accordance with Official Letter No. 2601/NHNN-TCKT dated 14 April 2009 issued by the SBV, for investment securities, the Bank is allowed to reclassify maximum once after the initial classification at the time of acquisition.

Notes to the Consolidated Interim Financial Statements (cont.)

Available-for-sale investment securities

Available-for-sale investment securities include debt securities that the Bank holds for an indefinite period and may sell at any time. Available-for-sale investment securities are recognized on the date when the Bank becomes a party to the contractual terms of these securities.

Debt securities are initially recognized at cost which include purchase cost plus directly attributable costs such as brokerage fee, transaction fees or information fees (if any). Accrued interest (for debt securities with interest payment in arrears) and deferred interest (for debt securities with interest payment in advance) is recognized in separate accounts. Discount/premium, which is the difference between the cost and the amount being the par value plus (+) accrued interest (if any) or minus (-) deferred interest (if any) is also recognized in a separate account.

Subsequently, these securities are recorded at amortized cost affected by premium/discount amortization less provision for investment securities including provision for credit risks and provision for diminution in the value of securities. The interest received in arrears is recorded as follows: Cumulative interest incurred before the purchase date is recorded as a decrease in the accrued interest; cumulative interest incurred after the purchase date is recognized as income based on the accumulated method. The interest received in advance is amortized into the securities investment interest income on a straight-line basis over the terms of the securities investment.

Available-for-sale listed debt securities are recorded at cost less provision for diminution in the value of securities by referring to the latest transaction at the Stock Exchange within 10 days of the end of the accounting period. In case there are no transactions within 10 days from the end of the accounting period, the Bank shall not make provisions for these securities. The Bank made no provision for Government bond, Government guaranteed bond, Local authority bond classified as investment securities. Provision is recognized in the "Net gain/(loss) from trading of investment securities" of the Consolidated Interim Income Statement.

Available-for-sale unlisted corporate securities (including bonds issued by other credit institutions) are recorded at cost less provision for credit losses according to the method described in Note No. IV.6.

Held-to-maturity investment securities

Held-to-maturity investment securities are debt securities with fixed maturities and fixed or determinable payments, where the Bank has positive intention and ability to hold until maturity. In case the securities are sold before the maturity date, the remaining portfolio of these securities will be reclassified to appropriate account before the time of sale.

Held-to-maturity investment securities are recorded and measured similarly to debt securities available-for-sale as presented at Note regarding Available-for-sale investment securities.

9. Tangible fixed assets

Tangible fixed assets are presented at historical cost minus any accumulated depreciation. Historical cost of tangible fixed assets comprises all costs incurred by the Group to acquire the assets up to the time when they are brought to their working condition for their intended use. Subsequent costs are added to the historical cost of fixed assets only if it is probable that future economic benefits associated with the asset will flow to the Group. Subsequent costs that do not meet the above conditions will be recognized as operation costs during the period. Costs of routine repairs and maintenance of tangible fixed assets are recognized in operation costs in the period in which they are incurred. For fixed assets that must undergo periodic repairs and maintenance in accordance with technical requirements, significant expenses incurred for repairing and maintaining these fixed assets are recognized as deferred expenses and amortized gradually into operation costs until the next routine repair or maintenance period.

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)

Upon disposal or liquidation of a tangible fixed asset, its historical cost and accumulated depreciation are derecognized, then any gain or loss resulting from such disposal is included in the income or the expenses during the period.

Tangible fixed assets are depreciated on a straight-line basis over their estimated useful lives. The useful lives and depreciation methods are reviewed at least at the end of each fiscal year and adjusted as necessary. The depreciation years applied are as follows:

<u>Fixed assets</u>	<u>Years</u>
Buildings and structures	5 – 50
Machinery and equipment	5 – 15
Motor vehicles	6 – 10
Office equipment	3 – 8
Other fixed assets	5 – 10

10. Intangible fixed assets

Intangible fixed assets are presented at initial cost minus any accumulated amortization.

Initial cost of intangible fixed assets includes all costs incurred by the Group to acquire the assets up to the time when they are brought to their working condition for their intended use. Subsequent costs relevant to intangible fixed assets are recognized as operation costs during the period in which they are incurred, unless such costs are directly attributable to a specific intangible fixed asset and increase the future economic benefits expected to be derived from that asset.

Upon disposal or liquidation of an intangible fixed asset, its initial cost and accumulated amortization are derecognized, then any gain or loss resulting from such disposal is included in the income or the expenses during the period.

The useful lives and amortization methods are reviewed at least at the end of each fiscal year and adjusted as necessary.

The Group's intangible fixed assets include:

Land use right

Land use right includes all the actual expenses paid by the Group directly related to the land being used such as expenses to obtain the land use right, registration fees and other directly attributable costs. The land use right is amortized on a straight-line basis over the land using period (i.e. 25 - 49 years); if the land use right is permanent, it is not amortized.

Computer software

Costs directly attributable to computer software that is not an integral part of the related hardware are capitalized. The cost of computer software includes all directly attributable costs incurred by the Group up to the date the software is available for use. The computer software is amortized on a straight-line basis over 3 to 8 years.

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)

11. Operating leased assets

A lease is classified as an operating lease if substantially all the risks and rewards incidental to ownership of the asset remain with the lessor. Lease payments under operating leases are recognized as expenses on a straight-line basis over the lease term, irrespective of the timing or method of lease payments.

12. Other assets

Receivables classified as credit risk-bearing assets

Receivables classified as credit risk-bearing assets are recognized at cost deducting credit risk provision and classified and provided for by the Bank in accordance with method described in Note No. IV.6.

Other assets

Other assets, except for receivables from credit activities, are stated at cost less provision for credit losses on other assets.

Provision for losses on other assets is made based on the overdue status of debts or based on anticipated losses on undue debts which may occur when an economic organization is bankrupted or liquidated or debtor is missing, running away, being prosecuted, in prison, under a trial or pending execution of sentences or deceased. Provision made is recognized as operating expense during the period.

For overdue debts, the Bank makes provision for credit losses using the provision rate that is applied for overdue period in accordance with Circular No. 48/2019/TT-BTC dated 08 August 2019 of the Ministry of Finance on the basis of the debt age or estimated loss as follows:

- For overdue debts:
 - 30% of the value of debts overdue between 6 months and less than 1 year.
 - 50% of the value of debts overdue between 1 year and less than 2 years.
 - 70% of the value of debts overdue between 2 years and less than 3 years.
 - 100% of the value of debts overdue from 3 years or more.
- For doubtful debts: Provision is made on the basis of the estimated loss.

The provision for overdue debts are recorded in operating expenses in the Consolidated Interim Income Statement.

13. Liabilities

Liabilities, including borrowings from the Government and the SBV, deposits and borrowings from other credit institutions, deposits from customers and other liabilities are presented at cost.

14. Provisions for payables

Provisions are recorded when the Group has present obligations (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation.

If time causes material effects, the provisions will be determined by deducting the amount to be spent in future to settle the liability at the pre-tax discount rate that reflects the assessments of the time value of money and the specific risks from this liability in the current market.

15. Derivatives

The Bank enters into currency forward contracts and swap contracts to facilitate customers to transfer, modify or mitigate foreign exchange risk or other market risks, and also for the business purpose of the Bank.

KIEN LONG COMMERCIAL JOINT STOCK BANK

Address: No. 40 – 42 – 44 Pham Hong Thai Street, Rach Gia Ward, An Giang Province

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)

Currency forward contracts

The forward contracts are recorded at nominal value at the transaction date and are revalued at effective exchange rate at the reporting date and are stated at net value in the Consolidated Interim Statement of Financial Position. Differences upon revaluation at the end of the period are recognized in the “Foreign exchange differences” account in the Consolidated Interim Statement of Financial Position and are transferred to the Consolidated Income Statement at the end of the annual accounting period or upon maturity if the maturity date occurs prior to the end of annual accounting period. Differences between the amounts in VND of the foreign currency amounts which are committed to buy/sell at forward rate and spot rate are recognized in the Consolidated Interim Income Statement on a straight-line basis over the term of the contracts.

Currency swap contracts

The currency swap contracts are commitments to buy or sell the same amount of foreign currency (only two currencies are used in the transaction) with the same partner, in which there is a transaction with the spot payment term and a transaction with a payment period determined in the future and the rate of the two transactions is determined at the time of determination of spot transaction. Premiums/discounts arising from the difference of the spot exchange rate at the effective date of the contracts and the forward exchange rate will be recognized immediately on the effective date of the contracts as an asset if they are positive or as a liability if they are negative in the Consolidated Interim Statement of Financial Position. This difference is amortized to the Consolidated Interim Income Statement on a straight-line basis over the term of the swap contracts.

Interest rate swap contracts

Interest rate swap contracts are commitments to settle the interest amount based on floating or fixed interest rates over the notional principal amounts. The contract value in basic interest rate swap contracts of the same currency is recognized as off-statement of financial position items. Income earned and expenses incurred on nominal principal amounts are recognized in the Consolidated Interim Income Statement on an accrual basis.

16. Owner's equity and funds

Charter capital

Ordinary shares are classified as owner's equity. Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from owner's equity.

Treasury shares

When the Bank repurchases its own issued shares, the total amount paid, including directly attributable transaction costs, is recognized as treasury shares and presented as a deduction from equity. Upon reissuance, the difference between the reissuance price and the carrying value of treasury shares is recorded in “Share premiums”.

Reserves

On 12 June 2025, the Government issued Decree No. 135/2025/NĐ-CP, which supplements regulations on the annual financial plan of credit institutions. In which, the profit distribution for credit institutions and foreign bank branches shall be distributed in the following orders:

1. Profit sharing with investors in joint arrangements according to signed transactions or contracts (if any).
2. Offsetting previous years' losses that are no longer eligible for deductions from pre-tax profits in accordance with regulations.

| 5. | The remaining profit shall be distributed at the discretion of the credit institution or branch of a foreign bank in accordance with its charter, financial regulations, and internal rules. | |

The reserve to supplement charter capital is to supplement the Group's charter capital.

The purpose of financial reserve is:

- to compensate the unrecoverable losses, damages of assets or liabilities during the Bank's course of business;
- to compensate the Group's losses according to Decision of the General Meeting of Shareholders.

Financial reserve and charter capital supplementary reserve fund are non-distributable and are classified as part of owner's equity.

Other equity funds are appropriated from profit after tax. Appropriation from profit after tax and use of other funds must be approved by the General Meeting of Shareholders. These funds are not regulated by the laws and are allowed to distribute fully.

Bonus and welfare fund

Bonus and welfare fund, which is not required by laws, is appropriated from profit after tax and are fully distributable, and are used primarily to make payments to the Group's employees. Bonus and welfare fund is recognized in the Group's liabilities.

17. Off-consolidated interim statement of financial position items

From time to time, the Group has outstanding commitments to grant credit. These commitments take the form of approved loans and overdraft facilities. The Group also provides financial guarantees and letters of credit to guarantee the performance of customers to third parties. The contingent liabilities and commitments may expire without being advanced in whole or in part. Therefore, the amounts do not represent a firm commitment of future cash flows.

18. Interest income, interest expenses and cessation of estimated interest receivable

Interest income is recognized in the Consolidated Interim Income Statement on the accrual basis, except for interest income from debts classified in Group 2 to Group 5 and debts classified in Group 1 (Current) resulting from implementation of special policies of the State being recognized in the Consolidated Interim Income Statement upon receipt.

When debts are classified as Current resulting from implementation of special policies of the State, their interest income arising during the period is not recorded as income but recorded in the off-statement of financial position. Interest income from these debts is recognized in the Consolidated Interim Income Statement upon receipt.

KIEN LONG COMMERCIAL JOINT STOCK BANK

Address: No. 40 – 42 – 44 Pham Hong Thai Street, Rach Gia Ward, An Giang Province

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)

Interest from deposits, from investments in bonds and debentures, etc., is the amount of interest receivable during the period.

Payments for interest on loans and deposits are recorded on the basis of estimates.

19. Income from service provisions

Income from service provisions consists of fees received from settlement services, cashier services and other services. Income received from settlement services, cashier services and other services is recognized after service completion.

20. Recognition of uncollectible receivables

According to Law on Credit Institutions No. 32/2024/QH15 dated 18 January 2024 issued by the National Assembly, receivables from uncollectible accrued income at the due date are recorded as reduction in revenue if the income has been accrued in the same year or recorded as expense if the income has been accrued in different years and monitored in off-statement of financial position. Upon actual receipt of these receivables, the Bank will recognize them in income on the Consolidated Interim Income Statement.

21. Corporate income tax

The Bank's accounting policy for corporate income tax is applied in accordance with the provisions of the Corporate Income Tax Law No. 67/2025/QH15 dated 14 June 2025, the Decree No. 320/2025/NĐ-CP dated 15 December 2025 of the Government detailing certain articles of the Corporate Income Tax Law, guidance documents issued by the Ministry of Finance, and other relevant legal regulations. Corporate income tax includes current income tax and deferred income tax.

Current income tax

Current income tax includes the tax amount computed based on the assessable income during the period and the current corporate income tax rate. The assessable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses, non-taxable income and losses brought forward.

On a quarterly basis, the Group determines and recognizes the provisional corporate income tax payable. At the end of the fiscal year, the Bank determines the actual corporate income tax payable based on the final tax return and adjusts any differences with the provisional amounts recognized during the year.

Deferred income tax

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between carrying values of assets and liabilities serving the preparation of the Consolidated Interim Financial Statements and the values for tax purposes.

Deferred income tax liabilities are recognized for all the temporary taxable differences, except to the extent that they arise from the initial recognition of an asset or liability in a transaction that, at the time of transaction, affects neither accounting profit nor taxable income.

Deferred income tax assets are recognized for all deductible temporary differences to the extent that future taxable income will be available against which the deductible temporary difference can be utilized. Deferred income tax assets are also recognized for unused taxable losses and tax credits to the extent that it is probable that future taxable profit will be available against which they can be utilized. Deferred income tax assets and deferred income tax liabilities arising from transactions recognized directly in owner's equity are not recognized in deferred income tax expenses.

KIEN LONG COMMERCIAL JOINT STOCK BANK

Address: No. 40 – 42 – 44 Pham Hong Thai Street, Rach Gia Ward, An Giang Province

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)

The carrying amount of deferred corporate income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be recovered.

Deferred income tax assets and deferred income tax liabilities are measured using the tax rates that are expected to apply in the period when the assets are recovered or the liabilities are settled, based on the effective tax rates and tax laws that have been enacted or substantively enacted by the reporting date.

When preparing the Consolidated Interim Statement of Financial Position, deferred income tax assets and deferred income tax liabilities are offset against each other if:

- The Bank has the legal right to offset current income tax assets against current income tax liabilities; and
- Deferred income tax assets and deferred income tax liabilities are relevant to corporate income tax levied by the same taxation authority on either:
 - The same taxable subjects; or
 - The Bank has the intention to pay current income tax liabilities and current income tax assets on a net basis or recover tax assets and settle tax liability simultaneously in each future period in which significant amounts of deferred tax liabilities or deferred tax assets are expected to be settled or recovered.

22. Segment reporting

A business segment is a distinguishable component of the Bank that is engaged in manufacturing or providing an individual product or service or a group of related products or services, and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Bank that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

The nature of economic risks and benefits is the primary basis for determining whether the primary segment report is prepared by the business field or geographical area. If risks and rates of return are primarily influenced by differences in products and services, the primary segment report is prepared by the business segment and the secondary segment report is prepared by geographical area. Conversely, if risks and rates of return are primarily influenced by differences in geographical area, the primary segment report is prepared by geographical area and the secondary segment report is prepared by the business segment. The Bank's organizational structure, management and internal financial reporting system form the primary basis for determining whether a segment report is primary or secondary.

A segment must be reported if the majority of its revenue derives from external sales of goods and provisions of services and meets at least one of the following thresholds:

- The segment's revenue accounts for 10% or more of the total revenue of all segments.
- The segment's financial performance accounts for 10% or more of the total financial performance of all profitable segments or the total financial performance of all loss-making segments (whichever is greater in absolute terms).
- The segment's total assets account for 10% or more of the total assets of all segments.

The segment information is prepared and presented in conformity with the accounting policies applicable to the preparation and presentation of the Consolidated Interim Financial Statements of the Bank.

23. Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the Consolidated Interim Statement of Financial Position if, and only if, there is a currently enforceable legal right to offset financial assets against financial liabilities or vice-versa, and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

24. Related party

A party is considered a related party of the Bank if that party has the ability to control the Bank or exercise significant influence over the Bank, or has power to participate in financial and operating policy decisions of the Bank. A party is also considered a related party of the Bank if both parties are subject to common control.

Related parties of the Bank include:

- Individuals with direct or indirect voting rights and thereby have significant influence over the Bank, including major shareholders, members of the Board of Directors and their close family members.
- Key management personnel with the authority and responsibility to plan, manage and control the Bank's operations, including the Board of Management, Supervisory Board, Chief Accountant and other management members and their close family members.
- Entities over which individuals referred to above are able to exercise sufficient influence through direct or indirect ownership of voting rights, including entities owned by the key management personnel or major shareholders of the Bank and entities that share the key management personnel with the Bank.

Close family members of an individual are those who may cause influence or be influenced by that individual in their dealings with the Bank, including the individual's parents, spouse, children and siblings.

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

In considering if parties are related, attention is directed to the substance of the relationship and not merely its legal form.

Par value per outstanding share: VND 10.000.

Pursuant to Resolution No. 01/NQ-ĐHĐCĐ dated 23 April 2026 of the General Meeting of Shareholders, the plan to increase the charter capital through the issuance of shares to existing shareholders from owner's equity at the rate of 29,5% was approved. On 15 June 2026, the SBV approved the Bank's charter capital increase plan from VND 5.821.705.260.000 to VND 7.527.883.370.000.

As at 30 June 2026, the Bank had not completed the share issuance and relevant legal procedures for the charter capital adjustment. Accordingly, the charter capital as at 30 June 2026 is still presented as VND 5.821.705.260.000, and the Bank has not transferred the retained profit intended to use for the share issuance to the charter capital. The completion of the charter capital increase after the end of the accounting period is disclosed in Note No. XII.

Profit used to calculate basic earnings per share	939.466	736.144
The average number of ordinary shares outstanding during the period	748.988.337	748.988.337
Basic earnings per share (VND/share)	1.254	983

Basic earnings per share in the Consolidated Interim Financial Statements for the first 6 months of the current year and of the same period of the previous year are calculated based on net profit without deducting for the bonus and welfare fund, as the profit distribution plans for 2026 and 2025 do not include appropriation to this fund.

Basic earnings per share of the same period of the previous year have been restated because on 15 July 2025 and 15 June 2026, the Bank increased its charter capital through the issuance of shares for dividend payment and appropriation for bonus and welfare fund from retained profit of 2024 and 2025. This adjustment resulted in a decrease in the basic earnings per share of the same period of the previous year from VND 2.036 down to VND 983.

10b. Other information

Other than the event relating to the issuance of shares to pay dividends as presented in Note No. V.21, there are no other transactions over the common share or potential common share from the statement of financial position date until the date of these Consolidated Interim Financial Statements.

IX. FINANCIAL RISK MANAGEMENT**1. General overview**

The Group's operations are exposed to the following financial risks: credit risks, liquidity risks and market risks. The Bank's Board of Management is generally responsible for giving guidance, supervising and judging the risks as well as maintaining an effective risk control and compliance culture. The Board of Management of the Bank is responsible for developing objectives and basic principles in financial risk control for the Group, including design of the detailed policies on risk identification and measurement, risk limitations and regulations on risk prevention. Risk control is implemented by all the units and departments in line with the policies and procedures approved by the Board of Management.

The Risk Management Department of the Bank supports the daily risk control at the Bank under the direction of the Board of Management. Together with other departments, the Risk Management Department is responsible for developing the risk control system as well as the tools and methods to identify, measure, monitor, control and assess risks.

Additionally, the Internal Audit Department of the Bank is responsible for performing the independent review on the internal risk control and control environment of the Group.

2. Credit risk

Credit risk is the risk of financial loss to the Group if a counterparty to a financial instrument fails to meet its contractual obligations. Credit risk of the Group mainly arises from its loans and advances.

Policies on credit risk management and minimization

In order to manage credit risk, the Group has applied the following tools: development of policies and issuance of regulations on credit risk control; development of credit procedures; credit rate; regulations on credit line; review on credit risks; development of credit rank system and debt classification; authority decentralization in credit activities.

The Group has managed credit risk by setting up risk limitations related to customers or groups of customers acquiring loans in accordance with the regulations of the SBV. Additionally, credit risks are also managed by analysis on the ability of customers and potential customers on making payments to both interest and principal.

3. Liquidity risk

Liquidity risk is the risk that the Group has difficulties in fulfilling its obligations for financial liabilities.

The strategies applied by the Group in liquidity risk management are that the Board of Management sets up the minimum limit on due capital which is used to meet these withdrawals and the minimum level of inter-bank loans as well as loans to meet the withdrawals beyond the expectations.

Operating in an industry where operation of the Group is very sensitive to the changes of the market and false reports, the Group has been applying the measures to control the liquidity risk as follows:

- Maintaining the liquidity ratios that ensure the liquidity, deposit insurance in accordance with the regulations of the SBV;
- Managing its capital sources centrally in order to ensure the liquidity of the Group by researching, analyzing term differences, making estimates on time and values of major disbursements which may have effects on the inflows and outflows. From that, the Group has set out limits and developed appropriate investment portfolios which have high liquidity and can be converted in cash to meet the regular or irregular demands for cash withdrawals of customers;
- Actively following up, analyzing, assessing and being responsible to disclose information in order to help customers understand clearly all the operations of the Group.

4. Market risk

The Group is exposed to market risk which arises from the fluctuations in future cash flows of financial instruments due to the changes in the market. The market risk arises from the open status of interest rate and currency, which are under the effects of changes in market in general and each type of market in particular as well as affected by the fluctuations on the market, such as interest rate, credit, exchange rate.

The market risks related to operation of the Group include currency risk and interest rate risk.

Interest rate risk

The interest rate risk occurs when the future cash flows of a financial instrument unexpectedly fluctuate due to the changes in market interest rates. The Bank manages this risk by controlling the differences in monthly interest rates.

The Bank measures risk by analyzing the sensitivity of the interest rate, i.e. classification of bonds and other documents into group of market risk level, based on currency type, due date, etc.

In order to manage the interest rate risk, the Bank has been applying the policies on interest rate risk management on the basis of ALCO reporting system to analyze the difference between Debt-Equity assets in each term, calculate the Duration Gap of the Debt-Equity assets, the interest rates of the items of capital and assets, and has given out appropriate solutions for treatments accordingly:

- Giving loans at the floating interest rates, which enables the Group to apply flexible interest rates to loans suitably with the fluctuation of the market rates of interest;
- Maintaining a reasonable difference between deposit interest rates and loan interest rates, complying with the regulations on capital safety of the SBV.

CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2026

Notes to the Consolidated Interim Financial Statements (cont.)**Currency risks**

Currency risk is a form of risk arising from changes in currency exchange rates. The Group was established and operates in Vietnam and the accounting currency is VND, major transactions of the Group are also in VND. The financial assets and liabilities of the Group are mainly denominated in VND, a part in USD, EUR and others.

The Group's strategy in managing currency risk is to develop a system of limits to manage the state of currencies. The state of currencies is managed on a daily basis and a risk prevention strategy is used to ensure that the state of currencies remains in the set limits. Additionally, the Group also has used other tools, such as optimizing the repayment period of loans, forecasting the exchange rate, maintaining an appropriate structure of loans and debts in foreign currency and VND.

In order to minimize the currency risk, the Group has developed and applied its policies on foreign currency management as follows:

- Complying fully with the regulations of the SBV;
- Establishing and managing foreign currency in open position;
- Controlling risks by separating functions of each department and section, giving regulations on decentralization, transaction limits and stopped loss limit;
- Diversifying the derivative products.

All transactions in and out of the statement of financial position items are included into the foreign currency status right upon its generation.

The following statement summarizes the exchange rate risk of the Group as at 30 June 2026. This statement presents the assets and liabilities of the Group according to the carrying values and currency types.

XII. SUBSEQUENT EVENTS

As presented in Note No. V.21, the Bank was approved by the SBV to increase its charter capital through the issuance of shares to existing shareholders from the source of owner's equity. On 09 July 2026, the Bank completed the share issuance to increase its capital from owner's equity and announced the issuance results, while simultaneously adjusted the number of outstanding voting shares. On 14 July 2026, the Bank received a document from the State Securities Commission of Vietnam regarding the issuance result report. On 22 July 2026, the SBV issued Decision No. 1694/QĐ-NHNN amending the charter capital in the Bank's Establishment and Operation License. Accordingly, the Bank's charter capital is increased from VND 5.821.705.260.000 to VND 7.527.883.370.000.

Other than the event disclosed above and the event on change of the head office location as presented in Note No. I.4, there are no other material subsequent events which require adjustments or disclosures in the Consolidated Interim Financial Statements.
